

9

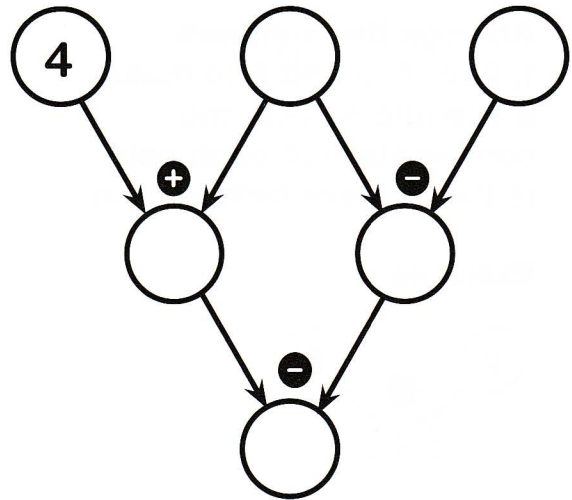

Circuit Triangle

Arrange the numbers 1, 2, 3, 4, 5 and 6 to make a triangle so that the combination of each pair is the number below them.

Example

$$5 - 2 = 3$$

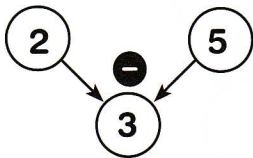

10

Circuit Triangle

Arrange the numbers 1, 2, 3, 4, 5 and 6 to make a triangle so that the combination of each pair is the number below them.

Example

$$5 - 2 = 3$$
